

Announcement of the release of:

Designing a Curious Life

The book explains how to redesign our life to be based on the love of exploration and utilising the gift of curiosity throughout our life journey. The book shows the role of curiosity in solving complex problems, including socio-economic problems. This book scientifically shows how curiosity affects the quality of our life and the impact we could leave in this life.

You are invited to visit any of the main international book stores, or visit:
